

About Aero-Environmental Consulting

Aero-Environmental Consulting LLC was started by David A. Witt following over 30 years of experience working for large corporations and/or small consulting companies. Mr. Witt is a Minnesota Licensed Professional Geologist (P.G. #30454), an American Institute of Professional Geologists (AIPG) Certified Professional Geologist (CPG-09862) and FAA licensed pilot. Mr. Witt is a Certified Professional Aerial Photographer by the Professional Aerial Photographers Association (PAPA) International.

When a project requires specialized services, competitive bids from contractors are obtained to guarantee the most cost effective options for our clients. In addition if project scope or complexity warrants, Aero-Environmental Consulting partners with other competent associate consultants and/or contractors to provide the best project quality, timely completion and cost effectiveness.

Aero-Environmental Consulting is proud to be associated with several professional organizations. For specific information about these organizations, click on any of the logos below to go directly to the organization's website.
